

## Netball

Cardiff University Netball Club requires a coach who will be committed, enthusiastic and push our players to higher standards. Currently, we have 5 teams that play in the BUSA league. 2007 has been a successful year for all of the teams; a recent achievement was winning the Welsh Cup. Training takes place for two hours every week and on Wednesdays league matches are played. We would like a coach that can start in September and will help at trials, is able to attend training regularly and will support the girls in their matches.
